

### REMARKS

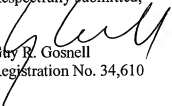

Applicant submits this Supplemental Amendment to clarify the existing prosecution record of this application. The first Filing Receipt mailed April 13, 2004, had the correct priority information as defined by the cross-reference paragraph that had been introduced by means of a Preliminary Amendment filed on January 5, 2004. A Notice to File Corrected Application Papers accompanied the Filing Receipt and requested the submission of a Substitute Specification.

On September 23, 2004, Applicant submitted a substitute specification, but failed to change the cross reference paragraph in the substitute specification to include the changes made in said paragraph in the Preliminary Amendment. As a result of this inconsistency in the cross-reference paragraph, the second Filing Receipt dated November 15, 2004, had the incorrect priority listed, and the application also published with the incorrect priority.

In order to clarify the priority claim, this Supplemental Amendment is submitted so that any resulting patent prints with the correct cross-reference paragraph.

It is not believed that extensions of time or fees for net addition of claims are required, beyond those that may otherwise be provided for in documents accompanying this paper. However, in the event that additional extensions of time are necessary to allow consideration of this paper, such extensions are hereby petitioned under 37 CFR § 1.136(a), and any fee required therefore (including fees for net addition of claims) is hereby authorized to be charged to Deposit Account No. 16-0605.

Respectfully submitted,
